Burnell Finley says that on the afternoon of April 4, 1968, around 5 PM, he and Julius Graham were in Canipes Music Store looking at some records. The Record racks are on the south side of the store. Finley said that he did not hear anything until he heard someone drop a package in the off set of the Music Store. Finley says this was when he looked up and saw a man going around the corner of the off set. He said it would impossible for him to give any kind of description of the man, but Graham saw him just before he dropped the package. Finley said in just a few seconds a White Mustang pulled out just south of Canipes going north. In about three minutes a Deputy Sheriff came to the door and said that no one should leave. The Deputy Sheriff then went out on the street and looked up on the roof. Finley said he and Graham stayed in Canipes until they were told by officers that they could leave.
