Interview - Mr. Julius Graham - 804 N. Fifth St.

Julius Graham was in Canipes on So. Main on April 4, 1968 - between 5:30<sup>pm</sup> & 6:00<sup>pm</sup>. Looking at records - glanced to right (which is to the West) and saw a man walking fast going south on So. Main, also heard foot steps - seconds after this man passed by, Graham was aware that something had been dropped in front of the door. This man was white, ~~to~~ about 5'9 or so, dark hair, dark business clothing - could not tell if a tie was worn by the man. Cannot give description as to age - But will guess between 25 + 35 years old.

Medium Build - just saw man for a second. A few seconds elapsed between the time that Graham was aware that something had been dropped in front of the door and the time Mr. Canipes started to the door. About 1 min. after Mr. Canipes walked to the front door and looked ~~at~~ these dropped items, from inside the door, a white Mustang drove off (fast) from south of the store - in a northerly direction on So. Main St. - Graham heard tires make a loud noise.

Graham says about 3 min. went by from the time the items were dropped until a Deputy Sheriff came to the front of the store looked up - then ran across the street with gun drawn - Sheriff got behind a car and looked ~~we~~ up on the top of the building at 424 So. Main. Officers began to come around front of building - Graham gave statement to police.
