

What's in a Dream

The three characters may be 3 in 1, but in the dream, I saw them in a room, lounging on a bed. They were discussing a gun and its whereabouts. It seemed the purpose was to dispose of Martin Luther King upon his return to Memphis. Rex or May seemed to be the important one. Seems that he was a native of Alabama, resident of Louisville Ky. and residing in Atlanta about 6 ft. receding hairline, sharp nose (good looking) young between 20 and 30. I thought it was important that I get his description, age etc. (I'm not very good at determining age.) I don't remember the other two very well. It didn't seem important except they all three had something in common Drinking and wanting to dispose of Mr. King. May I make it clear that this dream occurred before Mr. King returned to Memphis. I sincerely believe there is more than one person involved. A DREAMER.
