GOLDSBY CEMETERY

Visited November 16, 1969. This was an old family cemetery located in a grove of six tall, old cedar trees at the end of a dirt road behind a house located at 4703 Pleasant Ridge Road, just east of the Raleigh-Millington Road. The small cemetery was fenced and kept in good condition. There were eight concrete blocks in this cemetery, each one placed in such a position as to indicate its use as a headstone. The regular tombstones with inscriptions were:
