

FUNERAL HOME RECORD BOOKS

This list is extracted from the alphabetical index of the J.C. Holst & Co. Funeral Home and McDowell & Monteverde Undertakers record books, which is housed at the Memphis/Shelby County Library and Information Center, History Department.

In order to complement the cemetery information in the books "Gravestone Inscriptions of Shelby County, Tennessee", Volumes I, II, and III, only the burials outside the city of Memphis are listed, plus a few located near county borderline railroad stations. It should be noted that Railroad Stations located in the county one year may be inside the city limits in another year.

The names given as cemeteries in this list are actually the Railroad Station to which the body was shipped. Therefore, someone listed as buried in Millington, Lucy, Whitehaven, Capleville or Germantown, etc. would have been shipped to that depot and transported by wagon to a family cemetery, a church cemetery or a town cemetery in the area for burial. Obituaries in contemporary newspapers could also give burial information.

The FUNERAL HOME RECORD BOOKS list starts on the next page.
