Dear Mr. Hoover,

I hereby wish to make a claim on the reward offered for information leading to the capture of James Earl Ray the alleged assassin of Dr. Martin Luther King.

I base this claim on the fact that having recognised Ray and other brutal looking Americans in London I did publically state in diverse places in that city, that the man wanted by the F.B.I. in that world-wide search was in hiding in the capital before he was captured. I made this claim at this late date due to the fact that I wished to remain anonymous, until my name was published prominently in a British newspaper of international recognition (re Sunday Express 2nd Feb '68) for identifying another American criminal in connection with the Domench Dossier,

Please do not misunderstand, as people will vouch for this, and the fact that I caused quite a stir amongst civilians in the metropolis of London by announcing what I knew to be true. This could in fact have led to Ray making for the continent hence his capture at London Airport as no doubt my observations reached the British police, who know of me in connection with the above -- mentioned case and the fact that I was seen at London airport watching departures just a few days previous to the famous capture.

Trusting that this communication reaches you, and finds you in the very best of health I remain yours sincerely

Frank Mulcahy

P.S.

If you require any further information please let me know. I can assure you of my continued assistance in tracking down these foul murderers.
